- (c) Interest Income will be reported to the LHIN and is subject to a year end reconciliation. In the event that some or all of the Interest Income is not used to provide the Services,
 - (i) the LHIN may deduct the amount equal to the unused Interest Income from any further Funding instalments under this or any other agreement with the HSP; and/or
 - (ii) the LHIN may require the HSP to pay an amount equal to the unused Interest Income to the Ministry of Finance.

4.7 **GST.** The HSP:

- (i) acknowledges that all GST rebates it anticipates receiving from the use of the Funding have been incorporated in its Budget;
- (ii) agrees that it will advise the LHIN if it receives any unanticipated GST rebates from the use of the Funding, or from the use of funding received from either the LHIN or the MOHLTC in years prior to this Agreement that was not recorded in the year of the related expenditure;

5.2 **Provision for the Recovery of Funding.** The HSP will make reasonable and prudent provision for the recovery by the LHIN of any Funding for which the conditions of Funding set out in subsection 4.5 are not met and will hold this Funding in accordance with the provisions of subsection 4.6 until such time as reconciliation and settlement has occurred with the LHIN. Interest earned on Funding will be reported and recovered in accordance with subsection 4.6.

5.3 **Settlement and Recovery of Funding for Prior Years.**

(a) The HSP acknowledges that settlement and recovery of Funding can occur up to seven years after the provision of Funding.

(b) Recognizing the transition of responsibilities from the MOHLTC to the LHIN, the HSP agrees that if the parties are directed in writing to do so by the MOHLTC, the LHIN will settle and recover on behalf of the MOHLTC, and the HSP will enable the recovery of funding provided to the HSP by the MOHLTC in fiscal 2000/01 and every subsequent fiscal year up to and including 2006/07. All such settlements and recoveries will be subject to the terms applicable to the original provision of funding.

5.4 **Debt Due.**

(a) If the LHIN requires the re-payment by the HSP of any Funding the amount required will be deemed to be a debt owing to the LHIN by the HSP. The LHIN may adjust future funding instalments to recover the amounts owed or may, at its discretion direct the HSP to repay the amount owing to the LHIN

(b) All amounts repayable to the LHIN will be paid by cheque payable to the "Ontario Minister of Finance" and mailed to the LHIN at the address provided in section 13.1.

5.5 **Interest Rate.** The LHIN may charge the HSP interest on any amount owing by the HSP at the then current interest rate charged by the Province of Ontario on accounts receivable.

ARTICLE 6.0 - PLANNING & INTEGRATION

6.1 **Planning for Future Years.**

(a) **Advance Notice.** The LHIN will give at least sixty Days notice to the HSP of the date by which a Community Annual Planning Submission ("CAPS"), approved by the HSP's governing body, must be submitted to the LHIN.

(b) **Multi-Year Planning.** The CAPS will be in a form acceptable to the LHIN and will incorporate (i) prudent multi-year financial forecasts; (ii) plans for the achievement of performance targets; and (iii) realistic risk management strategies. It will be aligned with the LHIN's Integrated Health Service Plan and will reflect local LHIN priorities and initiatives. If the LHIN has provided multi-year planning targets for the HSP, the CAPS will reflect the planning targets.

(c) **Multi-year Planning Targets.** Schedule B may reflect an allocation for the first fiscal year of this Agreement as well as planning targets for up to two additional years, consistent with the Term of the Agreement. In such an event,

(i) the HSP acknowledges that if it is provided with planning targets, these targets are (A) targets only, (B) provided solely for the purposes of planning, (C) are subject to confirmation and (D) may be changed at the discretion of the LHIN. The HSP will proactively manage the risks associated with multi-year planning and the potential changes to the planning targets.

(i) the LHIN agrees that it will communicate any material changes to the planning targets as soon as reasonably possible.

(d) **Service Accountability Agreements.** The HSP acknowledges that if the LHIN and the HSP enter into negotiations for a subsequent service accountability agreement, funding may be interrupted if the subsequent accountability agreement is not executed on or before the expiration date of this Agreement.

6.2 Community Engagement & Integration Activities

(a) **Community Engagement.** The HSP will engage the community of diverse persons and entities in the area where it provides health services when setting priorities for the delivery of health services and when developing plans for submission to the LHIN including but not limited to CAPS and integration proposals.

- (iv) if requested by the LHIN.

6.3.2 LHIN Evaluation of the Pre-proposal: A pre proposal is not formal notice of a proposed integration under s. 27 of the Act. LHIN consent to develop the project concept outlined in a pre-proposal does not constitute approval to proceed with the project. Nor does LHIN consent presume the issuance of a favourable decision, should such a decision be required by section 25 or 27 of the Act. Following the LHIN's review and evaluation, the HSP may be invited to submit a detailed proposal and a business plan for further analysis. Guidelines for the development of a detailed proposal and business case will be provided by the LHIN.

6.4 Proposing Integration Activities in the Planning Submission. No integration activity described in subsection 6.3 may be proposed in a CAPS unless the LHIN has consented, in writing, to its inclusion pursuant to the process set out in 6.3.2

SCHEDULE A

DETAILED DESCRIPTION OF SERVICES

[NTD: this section would set out both the services as well as any conditions attached to the provision of a specific service – other than indicators of performance, or Service standards set out in Schedule D]

Agency Peace Ranch

A. Services Provided

Support within housing

- Peace Ranch is the landlord in a MOHLTC Bricks and mortar funded program, which houses 10 clients in a farmhouse. This service offers 24hr support and a very structured day which includes animal care as a component of activities of daily living. The service offered in this farmhouse utilizes PSR practices in promoting recovery allowing clients to move towards housing which requires less support. Access to this program is made available through a partnership with Ship's Central Intake. The clients have easy accessibility in participating in the on site social/recreation rehabilitation service.
- Peace Ranch is the landlord for 7 clients residing in congregate living in 2 townhouses. This has historically been a next step opportunity for farmhouse clients. Support is made available up to 8 hours a week. The support focuses on ensuring that there are healthy group dynamics and harmony in the households, in addition to providing support with activities of daily living. Support is offered in conjunction with case management coordinated through community support agreements with other agencies.
- Peace Ranch is a partner in the homelessness initiative, with Supportive Housing in Peel as the lead agency. Peace Ranch provides housing support to 20 clients residing in SHIP leased apartments. The support includes individual assessment and planning, assistance with activities of daily living, crisis management and facilitating group support.

Social Rehabilitation/recreation

- Green Spaces uses the natural environment as a tool in service delivery. Activities using plants and animals for recreation purposes create a context for furthering social rehabilitation outcomes. Participants are taught how to maintain their own garden plot and enter their produce/flowers into competition at local fairs. Scenic wagon rides help to break down barriers in socialization and animal care helps to create a sense of connectedness and empowerment. Clients have the opportunity to participate in an equestrian program. Art and music offer an avenue for self discovery.
The service is offered to the community 3 days per week.
- A day in the Country program offers consumers from urban based mental health programs a chance to participate in rural activities. This promotes the sharing of resources and has resulted in partnerships with other service providers.
- Rosie's Kitchen wholesome living program is offered in 1 day per week in the Caledon East community centre. Local residents have the opportunity to learn about safe food handling healthy eating and develop cooking skills. There is an exercise component after lunch as well as ongoing presentations from guest speakers. (Peel Public health contributes to the funding of this program.)
- Green Space staff helps to manage a social purpose enterprise that is called Eeyore's Market Garden. Clients are offered an opportunity to apply for work in the Peace Ranch market garden which involves growing produce and selling it at

local markets.

B. Client Population

The clients that reside in Peace Ranch farmhouse and townhouses are diagnosed with an axis 1 of Schizophrenia. The aim is to offer purposeful activity and teach self reliance thereby reducing psychiatric hospitalization. The farmhouse has been successful in reducing hospitalizations. This is tracked by comparing baseline admissions to current hospitalizations

The clients that receive housing support service in apartments have a range of serious mental illness including psychotic disorders, depression, anxiety, and personality disorder. Recovery goals are set and supported on an ongoing basis.

The clients that participate in the social rehabilitation service have the opportunity to develop social inter-personal and leadership skills while engaging in purposeful and recreational activities. This helps to maintain wellness and reduce crisis and time spent in the hospital. The additional focus on healthy living with ongoing fitness helps to reduce health problems for those at high risk with chronic disease issues.

The clients are often living in social isolation prior to entering the service.

The market garden offers self esteem, confidence and skill/ behavior development that helps link some into mainstream work.

All Peace Ranch clients are aged 18 to 65. Over 30% of clients are identified as concurrent. Caledon and Orangeville are communities with relatively small cultural diversity however with our Brampton client population we have provided service to those with; Caribbean, South American and South Asian heritage. Service is offered in English however through staff and volunteer language competency we are able to offer translation in Spanish, Italian, German and French if the need arises.

C. Geography Served

The catchment of our service recipients is concentrated in the settlements of Caledon, Brampton, Bolton and Orangeville.

The 24/7 staffed Peace Ranch farmhouse is located on a 25 acre farm in Caledon. The 2 Peace Ranch townhouses are located in Brampton. The Community Housing support service is for clients residing in SHIP leased apartments located in Bolton and Orangeville.

The majority of Social rehabilitation (Green Spaces), clients reside in Central west LHIN. With some service being provided to those living in Fergus, Mississauga, Arthur, Brantford and Georgetown. Green Spaces does offer field trips to destinations in the Greater Toronto Area.

SCHEDULE B – SERVICE PLAN

A. OPERATING PLAN AND BUDGET

Agency Name
Peace Ranch

A. Overview

Key Goals during the next 2 years include;

- Further development of our social purpose enterprise, (The Peace Ranch market garden) will involve focusing the business and scaling up activity.

The experience of work builds confidence and supportive employment training will make our clients more employable in the future. Strengthening capacity of our existing enterprise will be accomplished through generating more business and thereby creating more jobs with the intention of the enterprise being fiscally self sustaining. This will be accomplished by having a dedicated resource to conduct some of the research in determining the types of produce/products that would be manageable to grow/package and harvest while generating the greatest amount of revenue.

Part of the process would involve a better understanding of the local competition and expanding the current sales beyond the Orangeville Saturday market. We would also benefit from improved packaging that would help to advertise and promote the associated produce/ products. The planning process will involve possible alignment with other community agencies including the sale of products/produce at Supportive Housing in Peel –Destination Café.

- Promoting healthy lifestyle choices

In 2009 a Peace Ranch standard guideline for nutritious eating and active living was developed. Next year there will be continued work in refining this tool and making it more client friendly in addition to supporting our clients in following the recommendations within it.

Through Rosie's kitchen there will be a series of education sessions made available through Peel public health and other HSP's. Including safe food handling and presentations such on topics such as, smoking cessation, the disadvantages of mixing alcohol and anti-psychotic medication, healthy eating and nutrition.

- To identify partners and implement a sports association for consumers residing in the northern parts of central west LHIN
- To move from the pilot stage with the common assessment tool to full implementation.
- To provide meaningful daytime activity for seniors coping with depression, anxiety and social isolation.
- Board implementation of policies and practices based on information in the Governance toolkit made available by the LHIN
- To enhance the understanding your illness group through working with other hsp's. This group is designed to help consumers learn how to self manage symptoms of illness through improved coping strategies. Clients also learn the value of effective self advocacy at psychiatric appointments.

- Improved access to Green Spaces for agency's in the surrounding area.
 - A therapeutic riding program is being offered to Oliver House.
 - Caledon Meals on Wheels clients to have group visits to Green Spaces
- To develop a plan to meet the housing needs of mental health consumers in the northern part of Central West Lhin.

Quality Improvement strategies

The current structure with Health/Safety and Risk Management supports continuous improvement.

- Implementation of a new Health and Safety program began in 2008. Staff meetings have been the venue used to educate the staff, who then brings the procedures to the residents. The joint H&S committee reviews processes and makes recommendations regularly. Inspections are conducted monthly. Hazard reporting procedures are in place and are being implemented. A joint Board and Staff, Risk Management Committee meet monthly to review progress and review new issues
- The client information collected through surveys has a direct result in modifying approaches and service structure to ensure client satisfaction
- To improve outcomes for clients in crisis, staff is trained at regular intervals in Crisis Prevention, ASIST and First Aid / CPR

Internal reviews

There is an annual staff evaluation schedule which expires in 2011. It is Peace Ranch's policy to conduct staff evaluations once per year.

The evaluation of our housing service is a modified PSR toolkit survey and is scheduled twice per year. The Social recreation rehabilitation service solicits feedback from a survey which is circulated twice per year.

In 2009 Peace Ranch will be using a family input survey as well as a formal support feedback tool. The information collected has a direct input with the approaches and structure used in providing our services.

It also informs the need for new services.

Communication Strategies.

- Peace Ranch is currently going through a branding transformation; there is a new look, new logo and new website underway.
- All Board meeting minutes are easily accessible for staff review and all staff meeting minutes is available for Board review.
- To continue to search for an internet solution that will equip us with high speed
- To begin using one mail network
- I.T. infrastructure needs currently being addressed with an expanded telephone system and computer cabling project

Other notable activity

Continued fundraising and business planning towards the construction of an on site building which will be used to provide mental health service to existing and new clients including the psycho-geriatric population and youth. The building will also provide office space for existing administration which will create living space for 3 more consumers in the farmhouse. Peace Ranch would like to designate these 3 units to support respite and alternative levels of care specific to those with mental health issues being discharged from hospitals. The Peace Ranch Board intends to approach the LHIN Board with a proposal to secure financial support with capital and service dollars.

-Fundraising efforts also ensure consumer accessibility to health related service through the continued lease/purchase of vans

B. Advancement of the Integrated Health Services Plan (IHSP)

In an effort to support the integration of the local health system Peace Ranch has ongoing commitment to furthering partnerships and integration activities in the Dufferin area through participation in the Dufferin leadership meetings. Peace Ranch is also committed to the Central West Concurrent Disorders Capacity-Building Project led by William Osler Health Centre.

To support enhanced integration Peace Ranch supports the use of standardized tools such as the mental health Common Assessment tool.

Peace Ranch has a renewed program linkage agreement and is working towards a Board linkage agreement with Friends and Advocates Peel.

Peace Ranch has 4 other Mou's/partnerships with other HSP's in place, including the SHIP led homelessness initiative.

There is a meeting established to review the opportunity to create a next step housing, for those in group homes that want to pursue living with greater independence. This would be achieved by a transitional step into a Peace Ranch townhouses made by consumers living in SHIP or Peace Ranch This opportunity would further enhance Peace Ranch's involvement with SHIP's Central Intake and lead to greater efficiencies.

Peace Ranch aims to take pressure off Hospital Emergency Rooms and reduce psychiatric hospitalizations through promoting healthy lifestyle choices and facilitating the *understanding your illness sessions*, as outlined above.

The clients that typically enter the 24hr staffed housing service have histories of lengthy psychiatric hospitalizations. It is the goal of Peace ranch to reduce this need through offering a structured day, with purposeful activity towards client recovery. The success of the goal is measured by comparing baseline psychiatric hospitalizations data with current data. Improvements in accessibility into the social recreation service were achieved through using a queuing approach which had reduced wait time thereby improving accessibility.

C. Situation Analysis

--Wait lists for both services remains a concern. Every effort to address this pressure is being made through existing resources.

--Success with HRSDC grant provides additional summer (student) staff.

--HR needs are also met through student placements from York University community nursing program, Sheridan College student placements, George Brown College student placements and through Humber College There is ongoing concern regarding the cost of utilities. The property committee remains focused on exploring alternative energy options such as Geothermal. The ongoing pressure of insurance costs and gasoline continue to put pressure on the budget.

--The service volume for the support within housing service is expected to remain

consistent with the number of units of housing that are in available. Through improved intake there will be no vacancy. There is an expectation that 17 clients will receive housing support in the housing where Peace Ranch is the landlord and service provider. With the apartments in the community Peace Ranch currently provides support to 10 individuals and is expecting to provide support to 10 new clients in the Dufferin area.

- There is an expectation that the housing wait list will grow.
- The waiting list for the social rehabilitation service is expected to grow due to the need of maintaining a safe staff to client ratio.
- It is assumed that expenses will not exceed revenue.
- A significant risk to the disruption of service is staff leaving the organization. Recruitment is a challenge. The risk is managed by offering training/experience to part time staff to enable them to move into full time roles if the need arises.
- There is ongoing concern regarding the cost of utilities. The property committee remains focused on exploring alternative energy options such as Geothermal. The ongoing pressure of insurance costs and gasoline continue to put pressure on the budget.

D. Evaluation of Prior Year Performance

The evaluation of annual goals and objectives are on the agenda of every Board meeting. Last year's performance included, staff development/education, new job descriptions for management, deployment of a new health and safety program. As well as an improved planning cycle.

Peace Ranch was not successful in meeting fundraising targets as established by Trillium. There was also a setback with the completion of the new service building as a result of this problem.

There have been no significant budget variances.
